Dear Room 6

Hi, we just went to see the New Zealand Secondary schools Orchestra band at the new Event Centre. It was a wicked show and was really loud!!! All the people in the band were playing different instruments and even showed us how some of them worked. The conductor of the orchestra was able to make the orchestra sit and stand and changed the sound of the music, some of the instruments made really high noises. We had heaps of fun and recommend you all go and have a look around! The whole class should go there.
